

# Pylon, floor design Diesel Creative Team

Pylon was named after the metal base, with its embossed textured finish, inspired by the vision of an electric framework in an industrial landscape. It then adds a special touch of fashion and tailoring to this image by combining it with a diffuser in ivory tinted linen coupled with PVC that bestows this lamp with an unmistakable personality. The pure linen fabric - with a purposely uneven weft and warp, dyed and treated against fraying- is moulded like a dress onto the body of the diffuser with hand-pleated folds which give it a 3D shape, recalling an industrial filter or part of a turbine. Designed by the Diesel Creative Team and produced by Foscarini, Pylon is available in two matching versions: floor lamp - which can also be turned into a reading lamp since it is height-adjustable - and suspension lamp. Characterised by its warm and soft luminosity, Pylon is perfect both in a more intimate setting, such as a bedroom or living room, as well as in different communal areas, such as restaurants, public houses or a hotel lobby.

# Pylon, floor technical info

## Description

Floor lamp with diffused and direct up and down light. The outline of the opaline PVC polycarbonate diffuser is covered with pure linen fabric, with a purposely-uneven weft and warp of the fabric achieved by hand. The fabric, treated against fraying, is then bent and glued to achieve the pleated effect. The frame is made of white powder-coated steel. The frame is made of laser-cut steel coated with black powder paint with an embossed-rough finish. Telescopic rod, which extends by approximately 35 cm with external knob lock. The transparent cable is fitted with a dimmer which can be used both to adjust the level of luminous intensity gradually or as the on/off switch.

**Materials:** Dyed linen, PVC and varnished steel

**Colours:** black/ivory

## Model

### Pylon

### Weight

net kg: 8,80  
gross kg: 14,50

### Bulbs

- Halogen o LED retrofit 1x116W E27

### Packing

vol. m<sup>3</sup>: 0,449  
n.boxes: 2

### Certifications

V  CE  IP 20

## Brightness

semi-diffused and direct down light

## Diesel Creative Team

In 2009, Foscarini signed a partnership agreement with Diesel as part of the "Home Collection" home furnishings and lifestyle project. This partnership has given Foscarini the opportunity to make contact with a new target clientele and explore new lifestyles and furnishing trends through a collection conceived by Diesel for its own target group: "Diesel Living with Foscarini".

The Diesel Living with Foscarini collection speaks a range of different languages - from rock to pop, industrial to vintage, graphics to art - to illustrate the unmistakable Diesel lifestyle. Ironic, transgressive, eclectic, incandescent, the collection is made up of over 40 different lamp models. The collection is structured into a range of forms, materials and intended uses, lending itself to unexpected and unconventional settings, from domestic to public environments, always with a strong personality. The materials selected and researched for Foscarini, and perhaps even more so in the Diesel Living with Foscarini collection, are of the utmost importance. Materials which have never before been used in the lighting industry are the collection's added value.
